Communication No. 2074

ISU Challenger Series in Figure Skating Season 2017/18

1. PREAMBLE

The ISU Challenger Series, introduced during the 2014/15 season as an ISU series of International Figure Skating Competitions (see ISU Communications 1858, 1894, 1928 and 1994) has proven to be successful and an excellent tool for many Skaters to get prepared for qualifying and competing in ISU Championships.

The ISU Council reiterates that being mindful that the ISU support towards the ISU Grand Prix of Figure Skating is restricted to a limited group of organizing ISU Members, to a limited number of Skaters and to a limited number of Officials, the ISU Council agreed to financially support a restricted group of identified ISU Members traditionally staging International Figure Skating Competitions being part of the ISU Event Calendar.

This ISU support has the objective to ensure the proper and consistent organization and conduct of up to ten (10) International Competitions linked together within the ISU Challenger Series giving adequate opportunities for many Skaters to compete at the international senior level and earn World Standing Points and to increase the opportunity for Officials to officiate at an international level.

2. COMPETITIONS INCLUDED

In recognition of the long standing tradition and merit of the following International Competitions, there will be a core group of four (4) ISU Challenger Series events, namely:

- Nebelhorn-Trophy in Oberstdorf (GER)
- Finlandia Trophy (FIN)
- Ondrej Nepela Trophy in Bratislava (SVK)
- Golden Spin of Zagreb (CRO)

In addition, in order to ensure one Challenger Series event in North America, there will be one ISU Challenger Series event in Canada or the United States to be announced after consultation with the respective ISU Members.

The above-mentioned core group of 4 ISU Challenger Series events plus the above-mentioned North American Challenger Series event remains nevertheless subject to receiving an application from the concerned ISU Members and subject to ISU Council confirmation (see Paragraph 4 below for the details for the applications).

Up to a maximum of five (5) additional International Figure Skating Competitions may be added by the ISU Council based on the applications from organizing ISU Members to be submitted to the ISU.

3. MINIMUM REQUIREMENTS FOR APPLICABLE COMPETITIONS

Each International Competition must be of “Senior” category (see ISU General Regulations 2016, Rule 108, paragraph 3.a) and must include at least 3 disciplines of the Figure Skating Branch (Men, Ladies, Pair Skating, Ice Dance).

The International Competition must be scheduled between August 1 and December 15. The competitions, included in the “Challenger Series”, should not, if possible, clash with the dates of the ISU Grand Prix of Figure Skating events.

The International Competition must include **entries** in at least 3 disciplines from minimum ten (10) different ISU Members, all disciplines combined.

In addition, the minimum number of **entries** per discipline are as follows:

- Ice Dance: minimum of six (6) entries from at least four (4) ISU Members.

For the criteria relating to the awarding of special World Standing Points please refer to Paragraph 6 below.

Entries may be based on invitations extended to selected ISU Members or based open entries available to all ISU Members. The entry deadline for each event should be set 30 days prior to the first official practice day. Late entries will need the approval of the ISU Vice President Figure Skating.

Each competition must strictly comply with the 2016 ISU Constitution, General and Special Regulations and Technical Rules, in particular but not limited to the current Rules in the 2016 Regulations, namely Rules 102, 108, 352 and 353.

Following the principles of Rule 420, paragraph 5.a) of the 2016 Special Regulations Single & Pair Skating/Ice Dance, the members of each individual Technical Panel (Technical Controller and the Technical Specialists) must not be from the same ISU Member. The Technical Panel members must have the qualification of “ISU”, however one of the three members may have the qualification “International”.

The Referee must have at least the qualification “International” and can be of the same ISU Member as one member of the Technical Panel (Technical Controller and Technical Specialists).

The Data Operator and the Replay Operator must have the qualification of at least “International”.

No exception can be granted with respect to the above-mentioned composition of the Technical Panels and the qualification of the Referees and Data & Replay Operators.

The panel of Judges must include at least 7 Judges, all from different ISU Members. In exceptional cases the minimum of 6 Judges per panel may be authorized by the ISU Vice President Figure Skating. The qualification of the Judges must be at least “International”.

The Technical Panel members, the Referee and the Data and Replay Operators of International Competitions included in the ISU Challenge Series must be proposed by the respective ISU organizing Member to the ISU Secretariat latest 45 days prior to the first day of the competition. Based on the information received and further to internal ISU consultations, involving possible changes as necessary to comply with the above-mentioned minimum requirements, the ISU Vice President Figure Skating will decide upon the final appointments of the above-mentioned Officials. The respective organizing ISU Member will be informed through the ISU Secretariat and must inform the participating ISU Members accordingly.

Any subsequent changes due to the non-availability of previously appointed Technical Panel members, the Referees and the Data & Replay Operators must be announced by the organizing ISU Member to the ISU Vice President Figure Skating with copy to the ISU Secretariat and the respective ISU Technical Committee Chair(s). If such changes to be approved by the ISU Vice President Figure Skating would

not be in line with the above-mentioned minimum requirements, the concerned organizing ISU Members will be notified through the ISU Secretariat for possible adjustments.

If ultimately the organizing ISU Member is unable to apply the necessary adjustments and the final appointments of the above-mentioned Officials would not meet the above-mentioned minimum requirements and have an impact on the status of the concerned International Competition as an event of the ISU Challenger Series and consequently on the World Standing Points and/or the validity of the Minimum Total Technical Scores, then the concerned organizing ISU Member will be informed accordingly through the ISU Secretariat. The organizing ISU Member must immediately inform the participating ISU Members accordingly.

The competition format must include the Short Program and Free Skating in the Single and Pair Skating disciplines and the Short Dance and Free Dance in the Ice Dance discipline.

The competition results must be calculated according to the valid ISU Special Regulations Single & Pair Skating/Ice Dance, currently Rules 352 and 353 of the 2016 Special Regulations Single &/ Pair Skating/Ice Dance. The official calculation program of the ISU must be used.
