

## **ANTI-DOPING PROTOCOL for ISU EVENTS**

**This document is to help organisers prepare the ANTI-DOPING facilities for ISU Events and must be returned within 4 weeks of receipt to the ISU Secretariat.**

Please tick the box if appropriate.

**Yes    No**

- |                                                                                                                                                                                                         |                          |                          |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1. Have you read and understood the current ISU Anti-Doping Communication?                                                                                                                              | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Will a separate secure waiting room be provided? It must have a phone, desk, chairs, TV, refrigerator for sealed drinks and enough space for 15 persons, coaches, skaters, chaperones.               | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Will a separate secure administration room be provided? This should be large enough for a desk and 4 chairs, a table for equipment, and a lockable refrigerator or cabinet.                          | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Will the toilet room be large enough to accommodate both skater and observer for sample collection?                                                                                                  | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Will the toilet room within the administration area have washing facilities?                                                                                                                         | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Will the rooms mentioned above under 2 and 3 above be secure and lockable?                                                                                                                           | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Will there be a lockable refrigerator or cabinet in the administration room?                                                                                                                         | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Will the Anti-Doping facility be well signed?                                                                                                                                                        | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. Will there be an adequate number of trained assistants be provided, both male and female, for the sampling procedures and to act as chaperones? Refer to ISU Memorandum.<br><input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. Will there be a means of communication between the Anti-Doping room and the chaperones?                                                                                                             | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Will a copy of the current Anti-Doping Communications be available to teams on arrival?<br><input type="checkbox"/>                                                                                 | <input type="checkbox"/> | <input type="checkbox"/> |
| 12. Which IOC/WADA accredited laboratory is to be used for the analysis of the samples?<br>_____                                                                                                        |                          |                          |
| 13. Will Versapak/Berlinger system of sample collection be used?                                                                                                                                        | <input type="checkbox"/> | <input type="checkbox"/> |
| 14. If Versapak/Berlinger system is not being used which system would you use?<br>_____                                                                                                                 |                          |                          |
| 15. Name and contact information for Chief Doping Control Officer:<br>_____<br>_____<br>_____                                                                                                           |                          |                          |
| 16. ISU Anti-Doping Forms and the ISU Chain of Custody Forms must be used.                                                                                                                              |                          |                          |

**The above protocols have been discussed with the Organizing Committee and agreed.**
