

**ISU Anti-Doping Program:
Promoting Fair Sports and Protecting Athletes**

Working in collaboration with the World Anti-Doping Agency (WADA), the ISU has developed since 1999 an extensive anti-doping program including in and out-of-competition urine and blood tests. In the 2008-2009 season the ISU carried out over 2150 anti-doping tests, with WADA carrying out a further 80 out-of-competition tests on ISU athletes.

Specific anti-doping information for 2008-2009:

ISU in-competition testing:

i) Blood tests:

Speed Skating 941 pre-competition 131 in-competition
Short Track 145 pre-competition 24 in-competition
Total: 1086 pre-competition 155 in-competition

ii) Urine tests

Figure Skating 208
Speed Skating 336
Short Track Speed Skating 190
Synchronized Skating 8
Total: 742

ISU out-of-competition testing

i) Blood tests

Speed Skating 63

ii) Urine tests

Figure Skating 14
Speed Skating 76
Short Track Speed Skating 25
Total 115

In the coming 2009-2010 season, the ISU will increase its targeted out-of-competition testing based on competition results, blood tests and data from the ISU's longitudinal hematological database, particularly in the run up to the 2010 Olympic Winter Games.
