6. **Starting order Short Program/Dance ISU Grand Prix of Figure Skating individual events season 2017/18**

As per ISU Communication No. 2042 (Decisions of the Council Geneva September 9-20, 2016 meeting), the Council had clarified that the starting order for ISU Figure Skating Events (including the ISU Grand Prix of Figure Skating individual events and Final but excluding the ISU World Team Trophy) as well as the Olympic Winter Games (except the Olympic Figure Skating Team Event) and Winter Youth Olympic Games will be in line with the provisions of
Rule 513 as included in the 2016 Technical Rules Single & Pair Skating/Ice Dance and that a draw in line with the detailed provisions of Rule 513 for both the Short Program/Dance and the Free Skating/Free Dance will be conducted.

Based on the experience gained during the season 2016/17 and based on feedback from the organizing ISU Members of the ISU Grand Prix of Figure Skating individual events as well as TV rights holders for this series, the Council, in line with Article 17.1.q) of the ISU Constitution, decided to change the provision of the starting order/draw related to the ISU Grand Prix of Figure Skating 6 individual events and this restricted to the Short Program/Dance only.

Consequently, for the individual ISU Grand Prix events of the season 2017/18 the starting order in the Short Program/Dance segment will be the reverse order of the ISU World Standing placements at the time of each individual Grand Prix event. In the case of any tie, there will be a draw to determine who skates first among the tied Skaters. Skaters/Couples who have not earned any ISU World Standing points will be listed at the bottom of the ISU World Standing list in the alphabetical order of the concerned ISU Members. There will be a separate draw among those Skaters/Couples with no ISU World Standing points in line with the basic principles of Rule 513 in order to determine the starting order for those Skaters who will skate before the Skaters having earned ISU World Standing points.

7. Sustainability – Good Governance
The Council mandated a Working Group composed of Council members Maria Teresa Samaranch (Coordinator), Patricia St. Peter, Jaeyoul Kim and Roland Maillard to work out an ISU Sustainability/Good Governance survey and evaluation and to make specific proposals in order to improve the ISU’s governance record.

8. Honorary Awards
The Council decided to award **Prof. Harm Kuipers**, member of the Medical Commission since 2000 and retiring from this position by the end of the current season, with the ISU Gold Award of Merit. The Council had previously decided to grant the same award to the former long standing (1998-2014) ISU Medical Commission member **Dr. David Mitchell**. Both the awards recognizing Prof. Kuipers and Dr. Mitchell’s valuable contribution to the ISU Sports, were presented to them during the Helsinki ISU World Figure Skating Championships.

The Council furthermore formed a Working Group composed of Council members Marie Lundmark and Roland Maillard as well as Legal Advisor Béatrice Pfister to review pending Honorary Award proposals as to their compliance with the provisions of Article 15 of the ISU Constitution. The Council will review the pending proposals during its June 2017 meeting.

9. Ultimate Skating
Following up on the announced “Ultimate Skating” initiative as per ISU Communication No. 2053, point 9, the Council reviewed two proposals received from Skate Canada and the Figure Skating Federation of Russia but concluded that a presentation of an Ultimate Skating Program during the exhibition of the ISU World Figure Skating Championship 2017 was premature. Furthermore, the Council agreed that before pursuing this project, its purpose and possible impact on the Synchronized Skating discipline must be better evaluated and consequently that the Ultimate Skating Project was kept on hold.

In regard to Synchronized Skating, the Council agreed that the ISU Synchronized Skating Technical Committee shall be mandated to conduct during the season 2017/18 tests at
International Competitions with teams composed of a lower number of Skaters than currently in place (less than 16).

Furthermore, in line with Rule 800.2.d) of the Synchronized Skating Special Regulations, the Council agreed that the Synchronized Skating competitions at the Winter Universiade 2019, the Synchronized Skating teams may be composed of 16 competing Skaters as per the current Rule in place, but also may be composed of 12 competing Skaters only.
