Rule 504, paragraph 3.a), Definition of Program Components
Is revised as follows:
The Skater's/Pair's/Couple’s whole performance is evaluated by five (5) Program Components: Skating Skills, Transitions, Performance, Composition, Interpretation of the Music/Timing (for Ice Dance).
For Pair Skating and Ice Dance there must be equal demonstration of the criteria by both skaters.
Skating Skills
Defined by overall cleanliness and sureness, edge control and flow over the ice surface demonstrated by a command of the skating vocabulary (edges, steps, turns etc.), the clarity of technique and the use of effortless power to accelerate and vary speed.
In evaluating the Skating Skills, the following must be considered:
• Use of deep edges, steps and turns;
• Balance, rhythmic knee action and precision of foot placement;
• Flow and glide;
• Varied use of power, speed and acceleration;
• Use of multi directional skating;
• Use of one foot skating.

Transitions
The varied and purposeful use of intricate footwork, positions, movements and holds that link all elements.
In evaluating the Transitions, the following must be considered:
• Continuity of movements from one element to another (all disciplines);
• Variety (including variety of holds in Ice Dance);
• Difficulty;
• Quality.

Performance
Involvement of the Skater/Pair/Couple physically, emotionally and intellectually as they deliver the intent of the music and composition.
In evaluating the Performance, the following must be considered:
• Physical, emotional intellectual involvement and projection;
• Carriage & Clarity of movement;
• Variety and contrast of movements and energy;
• Individuality / personality;
• Unison and “oneness” (Pair Skating, Ice Dance);
• Spatial awareness between partners - management of the distance between skaters and management of changes of hold (Pair Skating, Ice Dance).

Composition
An intentionally developed and/or original arrangement of all types of movements according to the principles of musical phrase, space, pattern, and structure.
In evaluating the Composition, the following must be considered:
• Purpose (idea, concept, vision, mood);
• Pattern / ice coverage;
• Multidimensional use of space and design of movements;
• Phrase and form (movements and parts structured to match the musical phrase);
• Originality of the composition;

Interpretation of the Music /Timing (for Ice Dance)
The personal, creative, and genuine translation of the rhythm, character and content of music to movement on ice.
In evaluating the Interpretation of the Music (/Timing), the following must be considered:
• Movement and steps in time to the music (Timing);
• Expression of the music’s character / feeling and rhythm, when clearly identifiable;
• Use of finesse (*) to reflect the details and nuances of the music;
• Relationship between the Skaters reflecting the character and rhythm of the music (Pair Skating, Ice Dance);
• Skating primarily to the rhythmic beat for Short Dance and keeping a good balance between skating to the beat and melody in the Free Dance (Ice Dance).

*Finesse is the Skater's refined, artful manipulation of music details and nuances through movement. It is unique to the Skater/Skaters, and demonstrates an inner feeling for the music and the composition. Nuances
are the personal ways of bringing subtle variations to the intensity, tempo, and dynamics of the music made by the composer and/or musicians.
