## ISU Office Holders and ISU Members

The list of [ISU Office Holders](#) and the [ISU Members](#) are updated as and when necessary.

## Rules and Regulations

In Short Track Speed Skating a pack of four to eight Skaters race against each other rather than against the clock. Competitors skate a series of Preliminaries, Heats, Quarter-Finals, Semi-Finals and Finals over 500, 1000, 1500 meters and 3000 meters and Relay Events for National teams (composed of four Skaters) over 3000 meters for Ladies and 5000 meters for Men. Race winners, second and sometimes third placed Skaters/Teams move up to the next round. Fastest times following qualified skaters (in individual distances only) may also advance to fill remaining spots in the next round.

### Individual racing rules

- a) Races are run counter-clockwise, that is to say the inner side of the track is on the left hand side of the Skater/Relay Team;
- b) Overtaking is allowed at all times, but until the Skaters/Relay Teams are besides each other the responsibility for any obstruction or collision shall be upon the Skater/Relay Team overtaking, provided the Skater/Relay Team being overtaken does not act improperly;
- c) Any Skater/Relay Team who is bound to be lapped, either for the first time or other time, must move to the outside and may not interfere with the Skater(s)/Relay Teams overtaking him/them. Violation with interference will result in a Yellow or Red Card.
- d) If a Skater/Relay Team is lapped twice, that Skater/Relay Team shall leave the race unless there are one (1) or more other Skaters/Relay Teams very close to his current race position. Skaters/Relay Teams who have left the race on basis of this rule shall be recorded as not finished. If the Referee, at his discretion, feels that the Skater/Relay Team was prevented from finishing due to reasons beyond the Skaters/Relay Teams control, then the Referee may declare the Skater/Relay Team having reached the finish but no time shall be recorded;
- e) A Skater/Relay Team has completed the distance when the Skater has reached the finish line with the leading tip of the skate blade.

### Infringements:

- a) The general racing rule is that the Skaters/Relay Teams by their way of skating shall contribute to the honest sporting and safe progress of the race in order to determine the result of the race on its merits;
- b) Breaches of the racing rules are considered as follows:
  - OFF-TRACK: skating with one or both skates on the left side of the curve, marked by track marking blocks;

- IMPEDING: Impeding, blocking, charging, or pushing another Skater with any part of the body. Interfere with another Skater by crossing his/her course thereby causing contact;
- ASSISTANCE: Each Skater shall compete as an individual. Any assistance from other Skaters will be cause for sanctions of all Skaters/Relay Teams involved. This will not apply to the push the Skater receives from their Team-mate in a Relay race.
- KICKING OUT: Kicking out of any skate during any part of a race thereby causing danger including at the finish line or throwing the body across the finish line is forbidden.

### Relay racing rules

- a) Teams consist of maximum of the following number of Competitors:
  - i. World Championships 5
  - ii. World Junior Championships 4
  - iii. European Championships 5
  - iv. World Cup Competitions see World Cup Communication
  - v. All other Competitions 5

For each race any four (4) of the named Skaters must take part in the race;

- b) All members of a Team shall be equally dressed. Teams which do not comply with this shall be excluded from participation in the respective race. For Competitions where Skaters from different nations form a team, a simple and easy identification system will be sufficient;
- c) A Skater will be in the race and be responsible for the Team until that Skater is relayed by a Team member. Relaying will be by touch, that is to say a Skater will not be in the race until that Skater has been touched by, or has touched the Skater he is relieving;
- d) A Skater may be relayed at any time except during the last two (2) laps. These laps must be skated by one Skater. A warning shot will be fired to indicate the start of the last three (3) laps;
- e) In the case of a fall during the last two (2) laps, the Skater may be relayed.
- f) A Skater from a team can only come on the track to make an exchange. Skaters entering before an exchange and skaters exiting after an exchange are also subjected to the applicable racing rules. For eventual additional rules for Mixed Gender team competitions see the respective ISU Communication.
- g) The non-racing members of each team must stay out of the path of the racing Skaters and in an area that is clearly inside curves, marked by track marking blocks and a virtual line between the last block and the first block of the curves. Only to make an exchange, a Skater may leave this area. The line between the last and first block may be marked by dots.
- h) Exchanges are to be made without interference to other teams. During exchanges, changing the lane is not allowed and exchanges are to be made straight forward, directly in front of the Skater who is pushing, and the skates have to be kept out of blocking.
- i) Interference inside the track with Skaters coming in to take an exchange may also be considered an infringement.

### **Relay Infringements:**

- a) The individual racing rules, paragraphs 1 and 2, shall apply to Relay races, that is to say for all members of the Team, both participating and relayed Team members;
- b) Breaches of the relay racing rules are considered as follows:
  - RELAYING NON TOUCH: The relay has taken place without a touch or that the touch has not been obvious, clearly shown, and seen by the Referee or Assistant Referees;
  - RELAYING DURING THE LAST TWO (2) LAPS: The last relay has not been clearly started before the commencement of the final two (2) laps.

### **Team Racing Rules**

- a) A Team consists of a minimum of 2 Skaters.
- b) The finish position and time recorded by the last Skater of the Team finishing determines the result of the Team.
- c) The Skaters shall compete as a Team and may assist each other.
- d) A Skater may push a member of the same Team as long as this does not impede any Skater from another Team.

### **Team Racing Infringements**

The Individual Racing Rules (paragraphs 1 and 2) shall apply to Team Racing Rules, unless otherwise specified.

### **Sanction for Infringements of the Racing Rules or the ISU Code of Ethics**

- a) The term “disqualification” as used in Rule 123 paragraph 4 c). shall be understood to describe the various sanctions mentioned in this Rule including without limitation the following type of sanctions:  
Penalty; - for an infringement of the Racing Rules.

Yellow Card; -

- for an unsafe, harmful or hazardous offence;
- for more than one infringements of the Racing Rule “Impeding” and/or “Kicking Out” independent of each other resulting in a penalty, made in one (1) race;
- for other actions explicitly so specified in these rules. 54

Red Card:

- for an infringement of the Racing Rules which is deemed to be dangerous or grossly negligent;
- in the case a Skater is shown two (2) Yellow Cards in the same Competition;
- for other actions explicitly so specified in these rules;
- for a violation of the ISU Code of Ethics, which happens in the period between the appearance of a Skater at the Heat Box In and leaving the Heat Box Out after a race;
- for any action and behavior, either on or off ice during the competition period, i.e. the beginning and the end of a competition as established by the ruling body of the competition, and which action is considered by the

Referee as a non-compliance with instructions of an official in charge, or a violation of the ISU Code of Ethics.

- b) The Skater/Relay Team who received a Penalty will be disqualified in the relevant race in which the infringement occurred, and will be excluded from participating in the next round of the distance/competition concerned. With the exception of Final A, where Rule 295, paragraph 5 b) applies, the Skater/Relay Team will forfeit the points/result accrued in that race alone. Points/results accrued prior to that race will not be affected.
- c) The Skater/Relay Team who was been given a Yellow Card will be disqualified in the relevant race in which the infringement occurred and excluded from participating in the next round of the distance/competition concerned. The Skater/Relay Team will forfeit prior points/results accrued in all races over the distance/competition concerned. The right of the Skater to participate in other distances/competitions, or the results achieved in previous or next other distances/competitions are not affected.
- d) If a Yellow Card to a Relay Team is directly given because of the action of one Skater or is the result of 2 cumulative Penalties to the same Skater, that Yellow Card becomes cumulative for that particular Skater, and only that Skater. If a Yellow Card is given for a cumulative of 2 Penalties given to 2 different Skaters from a team, the Yellow Card is not cumulative.
- e) The Skater who was given a Red Card will not be allowed anymore to participate in any race, both Individual and Relay, and will not be ranked in the final individual classification. The results of other individual distances which have been concluded by the same Skater with a Final are not affected.  
55
- f) The Relay Team who was given a Red Card will be disqualified in the relevant race and will not be ranked in the final Relay classification. The respective Skater of the team who was given a Red Card will not be allowed anymore to participate in any race, both Individual and Relay, and will not be ranked in the final classification of individual distances not yet concluded. The results of individual distances which have been concluded prior to the Relay race will not be affected.
- g) Any Official or other participant in an ISU activity witnessing a violation of the Code of Ethics during the competition period needs to verbally report to the Referee. The Referee shall file a written report with the Short Track Speed Skating Technical Committee concerning any Skater who is shown a Red Card or a Yellow Card. The Short Track Speed Skating Technical Committee shall forward this information to the Sports Director who will inform the Council.
- h) The Short Track Speed Skating Technical Committee shall create a database of all Yellow and Red Cards issued during a skating season.
- i) Irrespective of the Red Card decision of the Referee, any Skater falls under the disciplinary authority of the Disciplinary Commission at any given moment and is subject to a sanction imposed by the DC.

- j) If a Skater has accumulated two (2) Red Cards within 12 months, that Skater shall be automatically suspended from all ISU Events, the Olympic Winter Games, the Youth Olympic Winter Games, and International Competitions for at least two (2) months or three (3) applicable competitions whichever is the longer period.
- k) The Referee's decision that: there was an infringement of the Racing Rules or a violation of the ISU Code of Ethics or decisions approving the announcement of the results showing that there was no infringement are final and no protests against such decisions are allowed (See Rule 123 paragraph 4 C);
- l) If, during a race, any irregularity that may affect the result does take place, the Referee may stop the race and order a re-start of the race. As a principle, this re-start shall take place immediately. In exceptional cases the Referee may postpone the restart to a later point on the competition program following Rule 290 paragraph 5 a. If the distance has been completed the Referee may order a re-run of the race considering the rest time according to Rule 295 paragraph 2. 56
- m) If any of the Skaters/Relay Teams have been sanctioned under this Rule for conduct occurring before the race is stopped, such Skater(s), and the Skater's Relay Team (if the race is a Relay race), will not take part in the re-run;
- n) In the case of a re-start of a Relay race substitution within each team is allowed.
- o) Any Skater, for whom the race has been stopped (to preserve the Skater's well-being), will not be allowed to take part in the re-start, unless the Skater was unable to continue due to reasons beyond his control. This does not apply to the starting procedure. The results of Skater(s) excluded for this reason from a re-start will show 'no finish'. This also applies to Relay Teams. If the Skater is injured resulting from an action by another Skater for which a penalty is given, the Referee may advance the injured Skater or let the Skater participate in the re-start or re-run.
- p) Sanctions imposed by the Referee under this Rule are communicated and recorded at the end of each race. The recorded decision is the final decision and cannot be changed unless there is a recording, technical, data or communication error. The corrections have to be made before the next qualifying round. Any correction must be officially announced and documented. Sanctions are announced at the end of each race before the announcement of the official results, to the Skater(s) / Team Coach or Team leader, and over the public address system for the benefit of the spectators, specifying where and how the Skater(s)/Relay Team concerned made an infringement and whether there is an advancement. The Announcer must inform the spectators immediately of the decision(s) that has been taken. With approval of the Technical Committee the Referee may also announce the decision over the public address system.

If the public address system can be understood loud and clear at the Coaches Box, or the information is immediately available on a screen or any other

communication device, there is no need for any On Ice Official to go to the Coaches Box to announce the decision(s).

In the case of a violation of the ISU Code of Ethics, either on or off the ice, within the competition period, the sanction may be announced also at a later stage and the consequences as indicated above will apply.

### World Cup Competitions

Considering the pandemic developments and related impact on the organizers and participants of ISU Events, the 2020/21 ISU World Cup Short Track Speed Skating Series are cancelled.

### ISU Short Track Speed Skating Championships

There are four ISU Championships held every season as of 2020 with the ISU Four Continents Short Track Speed Skating Championships, the European Championships, World Junior Championships and World Championships. The World Junior Championships has an allround character only while the World and European Championships have both an allround and single distances character.

Considering the COVID-19 pandemic developments and related impact on the organizers and participants of ISU Events the ISU Four Continents Short Track Speed Skating Championships 2021 and ISU World Junior Short Track Speed Skating Championships 2021 are cancelled.

The allround classification is build based on the results of each Skater in the three individual distances, 500, 1000 and 1500 meters. After the completion of the three individual distances, the top eight point scorers and ties on the eighth position will skate the 3000 meters Super-Final (For World Junior Championships, top six will skate the 1500 meters Super-Final).

The winner of the Championships is the Skater having accrued the highest total of points after the completion of the three individual distances and the Super-Final. The winner is awarded the Gold medal. The Skaters placed second and third in the Final. Classification after four distances are awarded the Silver and Bronze medal respectively.

The winning Team of the Championships' relay competition is the one which has been declared winner of the Final A race and is awarded the Gold medal. The teams placed second and third in Final A are awarded the Silver and Bronze medal respectively.

### Points and classifications

- a) Final Points will be awarded in the Finals A and B only. The points 34, 21, 13, 8, 5, 3, 2 and 1 are awarded in descending order commencing with the first place in Final A and after all places in Final A have been awarded, the remaining points will be awarded to the Final B in descending order starting with the first place;
- b) In the case of a penalty or did not finish in the Final A, the Skater(s) concerned will be awarded a number of points equal to the winner of the Final B.

In the case of a penalty in the Final B, the Skater(s) concerned will not be awarded any points;

- c) No points will be awarded to Skater(s) who did not start, received a yellow card or received a red card.
- d) In the case of a tie, all Skaters involved in a tie will receive the points awarded for that finish position (e.g. tie on 2nd both Skaters will receive 21 points). If two (2) Skaters are involved in a tie, the points for the following finish place will not be awarded, in the case of three (3) Skaters involved, the following two (2) finish places will not be awarded.

### **Single distance winners:**

At the World Short Track Speed Skating Championships, the winner of the Final race of each individual distance is declared World Champion over that particular distance and is awarded a Gold medal; the Skaters placed second and third in the Final race are awarded the Silver and Bronze medal, respectively.

At the European Short Track Speed Skating Championships, the winner of the Final race of each individual distance is declared European Champion over that particular distance and is awarded a Gold medal; the Skaters placed second and third in the Final race are awarded the Silver and Bronze medal, respectively.
