I. SPECIAL REGULATIONS SHORT TRACK
SPEED SKATING

A. Tracks

Rule 280

Track

1. a) For ISU Events, the Olympic Winter Games and Winter Youth Olympic Games the track shall be an oval of 111.12 m in a covered, enclosed and heated ice rink with minimum measurements of 60 x 30 m (see diagram in the Technical Rules).
   b) The width of the straight shall not be less than 7 m.
   c) The measurements from the apex block of the bends to the barrier shall not be less than 4 m.
   d) Curves and turns should be made symmetrically, there should be a symmetrical curve from the end of one straight to the point where the next straight begins.
   e) Besides the standard track there will be four or six other tracks laid out which are symmetrical to the standard track but moved in the direction of the straight with equal intermediate distances of up to 0.7 m when seven tracks are used, up to 1 m when five tracks are used to preserve good ice conditions. For all tracks one finish line will be used. For the starting lines see diagram in Technical Rules.
   f) In Semi-Finals and Finals of 500 m, the outside tracks (1 and 5 when there are five tracks and 1 and 7 when there are seven tracks) will not be used. Only the middle tracks as marked on the diagram shall be used.

2. a) The starting lines and finish line are to be denoted by lines (colored) drawn at right angles to the straight and not more than 2 cm wide.
   b) Starting lines are drawn from the barrier and will have a length equivalent to the actual width of the straight. The finish line is drawn from the barrier and will have a length of the actual width of the straight plus 1.5 m.
   c) Only for 500 and 1000 m: Starting at 50 cm from the inner side of the track, dots 2 cm diameter shall mark five starting positions every 1.3 m in order to define the starting positions.
   d) If the inner surface of the track is colored differently from the surface of the track for esthetic purposes, then this inner surface shall be symmetrical to the layout of the track, and start exactly at the end of the finish line (see diagram in the Technical Rules).
3. For International Competitions on ice rinks of less than 30 m in width the track that may be used is shown in the diagram in the respective Announcement.

Track markers

4. Track marking blocks of an approved design by the ISU Short Track Speed Skating Technical Committee shall be used and seven must be used in each curve.

Rink Board Padding

5. a) Protective mats must be installed around the ice surface. All measures must be taken in order to improve the safety of the Skaters. Mats must be covered with a water-resistant, not necessarily cut-resistant, material. Mats must be attached to each other, standing with their weight on the ice.
   b) All Padding systems must comply to the minimum specifications laid out in the respective ISU Communication.
   c) The following types of systems are defined:
      - Basic and Traditional rink board Padding System: the pads are placed against the boarding surrounding the ice surface. The details are laid down in an ISU Communication;
      - Hybrid Padding system: the boarding is partially removed, especially on the exit of the curves and in the skating direction up to about 10 m ahead of the starting and finishing line. The mats are self-standing and connected to each other, so that sufficient movement of the mats is possible in order to slow down falling Skater(s). Traditional mats are placed against the boarding in the other areas;
      - Moveable Padding system: there are no boards around the ice surface and the mats are self-standing, connected to each other, so that sufficient movement of the mats is possible to slow down falling Skater(s).
   d) For ISU Events, the Olympic Winter Games and the Winter Youth Olympic Games, a feasibility plan with all the technical descriptions of the material properties and drawing of the construction of the mats must be submitted with the initial application.
   e) For the Olympic Winter Games, a Moveable Padding system is mandatory. The Padding must comply with the specifications laid out in the respective ISU Communication. The selection of the Padding must also take into account the requirements for the final setup and logistical change-over issues, when sharing a venue with Figure Skating.
   f) For ISU Events and Winter Youth Olympic Games a Moveable Padding system or a Hybrid Padding system must be used as a minimum.
g) For International Senior and for International Junior Competitions age categories A & B, as a minimum a Traditional rink board Padding system must be used.

h) For International Junior Competitions, for Juniors age categories C & D, as a minimum a Basic Padding System must be used.

Facilities at rink

6. a) For ISU Events and the Olympic Winter Games, electronic equipment capable of producing an image of the finish and the times of the competitors shall be used. Times shall be produced in thousands of a second. These results shall be considered Official Results.

b) For ISU Events, Olympic Winter Games (OWG) and Winter Youth Olympic Games (YOG), an Instant Video Replay System (IVR) and Race Reporting System (RRS) approved by the ISU shall be used.

c) For International Competitions a manual procedure explained in Rule 290, paragraphs 13 and 14 may be used, if the above equipment is not available.

d) For ISU Events and the Olympic Winter Games, only computer software approved by the Short Track Speed Skating Technical Committee shall be used to document the results of races, prepare the make-up of the next round of races, and produce the final results and Protocol of the competition.

e) For International Competitions the procedure outlined in Rule 296 can also be done manually.

f) All technical equipment shall be located in areas restricted to public access.

Each SOQC is based on three best results out of four results over the respective distance achieved at the four ISU World Cup Short Track Competitions designated by the ISU that will be held between September and December preceding the respective edition of the Olympic Winter Games. The four SOQC for men will be for the Men’s 500 m, Men’s 1000 m, Men’s 1500 m and Men’s 5000 m Relay. These SOQC will be calculated following the same Rules and principles as the ISU World Cup Short Track Speed Skating classifications, i.e. using the World Cup points earned at the designated World Cup Competitions (for details please refer to the respective ISU Rules and ISU Communications). In the case of a tie in the SOQC, the following tie-breaking system will be used:

NOCs will be requested to confirm to the ISU the use of quota places within a specific deadline to be announced through an ISU Communication.

    - by best time over the longest distance on the program.

11. For the purpose of making up the first Qualifying Round at any ISU Event, World Ranking Lists shall be maintained over all individual distances, Relay distances and Mixed Team Relay distances. See Rule 286, paragraph 9.
12. a) During any Relay race in a competition, four Skaters shall compete. Entries of Teams with less than four Skaters shall not be accepted. However, for World Junior Championships, if a Team has qualified for a next round and one of the members of the Team has to withdraw due to medical reasons, the Team can start the next round with only three Skaters.

Before the start of any Relay race the names of those competing must be submitted to the Competitors' Steward. In the case of a restart or rerun of the Relay race, a substitution within the team can be made provided the Team is allowed to enter more than four Skaters. See Rule 297, paragraph 3.a).

b) All Skaters of a Team must belong to one and the same ISU Member. At specified competitions, Teams may be composed by Skaters from different ISU Members with the approval of the ISU.

Uniforms

13. During ISU Events and the Olympic Winter Games all Skaters, members of the same national Team (Individual and Relay) must wear identical uniforms. The racing uniforms shall show on the external part of both lower legs the name of the country or the official abbreviation. The size of the characters must not be smaller than 7 cm high. The racing uniforms and the warming-up uniforms may show the name of the Skater. See the respective ISU Communication.

Helmet-Covers

14. a) Helmet-covers, supplied by the ISU or Organizers of ISU Events and the Olympic Winter Games, clearly mentioning the Skaters number in contrasting colors, must be worn; Helmet-covers used at ISU Events must be approved by the ISU Technical Committee Representative. If no helmet-covers are supplied the Skaters may display artistic design on their helmets. Further requirements will be specified in an ISU Communication.

b) After each distance of an ISU Championship the organizers will supply to the Skater having attained the highest total of Final Points a helmet cover with a contrasting color. If a tie exists then the Skater with the higher rank (see Rule 295, paragraph 10) will carry this special helmet cover.
Rule 296

Drawing and seeding procedures

1. A draw shall take place to establish the starting order of each race.

2. For ISU Events and the Olympic Winter Games the composition of the first Qualifying Round of all distances, both Individual and Relay, is made up by the Competitors’ Steward in consultation with the Referee and the Representative of the Short Track Speed Skating Technical Committee in accordance with the respective World Ranking List (see Rule 286).

3. a) The composition of the races in each Qualifying Round is based on a Seeding List of all Skaters.
   b) For each distance, the current World Ranking List will be used as Seeding List for the first Qualifying Round.
   c) Skaters without a World Ranking will be placed on the Seeding List after the Skater with a World Ranking: The best season time over the distances will be used to determine a ranking for the make-up of the first round of each of the related distances. These times must be submitted to the ISU Secretariat at the latest 2 weeks before the Competition. The Representative of the Technical Committee will decide if the times can be accepted. See the respective ISU Communication for further details. The Skaters who have not submitted times or whose times have been rejected will be given a ranking by means of a draw, conducted by the Competitors’ Steward.
   d) For all other Qualifying Rounds, the current distance classification will be used as Seeding List.
   e) For World Junior Championships the seeding list will be established solely based on the individual best time for each distance. (See Rule 295, paragraph 4)

For Relay, the seeding list will be based on the results of the two preceding World Championships results.
For each of the two preceding World Championships, the point system according to Rule 295, paragraph 6 and the Distance Classification according to Rule 295, paragraphs 7 and 9 will be used to make Classifications per Event. These classifications will be combined following Rule 295, paragraph 10. In case of a tie the results of the most recent championships will be the tie breaker.

4. The composition of the races in each Qualifying Round shall be made by the Competitors’ Steward by placing the Skaters in the races by means of the Skaters current ranking in the Seeding List, e.g. the number one ranked Skater will be placed in the first race, the number two ranked
Skater will be placed in the second race etc., filling the races from the first race to the last race in the first instance. The second row, i.e. the second Skater in each race, will be filled from the last race to the first race. The next rows will be filled alternating from the first race to the last race, and from the last race to the first race until all Skaters have been placed.

5. a) Except for Quarter-Finals and Semi-Finals: If any Skater is to be placed in a race which contains a Skater from the same country, that Skater will be moved to the next available race, unless the Skater would be placed in a race on the next row. In that case the Skater will be exchanged with the previously placed Skater, or with his predecessors on the same row, if necessary to avoid placement of Skaters of the same country in a race. If there are no more races available to move a Skater to, then the Competitors’ Steward, with the approval of the Referee, may reverse Skaters on a previous line, but only within that line, commencing with the lowest ranked, to solve the matter. Reversing Skaters between lines is not allowed. If the matter cannot be solved then the Skater will be placed in the originally designated race.

b) For International Competitions: If the Quarter Finals or Semi-Finals are the first round of the competition, Skaters from the same ISU Member will be separated whenever possible following the procedure outlined in subparagraph a).

6. The Competitors’ Steward will draw the starting order for all races immediately after the make-up of the round is completed.

7. The composition of the Ranking Finals over each distance is made by the Competitors’ Stewards by placing the Skaters in the Ranking Finals in the order of the distance classification. The number of Skaters per race is according to the Qualifying Tables published by the Technical Committee.

The highest ranked Skaters will be in the last Ranking Final, the next highest ranked Skaters will be in the second last Ranking Final, etc. Ranking Finals with only one Skater will not be skated.

8. The lane positions of the first Qualifying Round of all distances at ISU Events, Olympic Winter Games and Winter Youth Olympic Games, are decided by the Seeding List of Competitors as specified in paragraph 3. For International Competitions the lane positions of the first Qualifying Round of a distance will be drawn by the Competitors’ Steward. For each subsequent round the lane positions will not be drawn but be decided by the times skated in the preceding Qualifying Round. The Skaters/Relay Teams will be assigned the lane positions from the inside
of the track to the outside in the order of their times commencing with the fastest time, in the following order:

a) In the case that no time in the previous round is available for a Skater/Relay Team due to failure of technical equipment or incorrect placement of blocks, then the best time in any race in this competition over the distance concerned will be taken to determine the lane position in accordance with subparagraph c) below;

b) If no times are available at all then a draw for lane positions shall take place first for any Skaters/Relay Teams without a time;

c) Following the Skaters/Relay Teams with a time will be assigned their position according to the times;

d) In the case that no time in the previous round is available due to being declared finished without a time, the Skater/Relay Team concerned will be assigned a starting position after the preceding Skaters/Relay Teams;

e) After determining the start positions of the above Skaters, any Skater qualified through a wild card will be placed next;

f) Skaters who qualified through a Repechage will be assigned a starting position after the preceeding Skaters/Relay Teams;

g) In the case that two or more Skaters/Relay Teams have the same time, then the best time in any race in this competition over the distance concerned will be taken to determine the order in which the respective Skaters/Relay Teams will be assigned a lane position.

C. Racing Rules

Rule 297

Individual racing rules

1. a) Races are run counter-clockwise, that is to say the inner side of the track is on the left-hand side of the Skater/Relay Team.

b) Overtaking is allowed at all times, but until the Skaters/Relay Teams are besides each other the responsibility for any obstruction or collision shall be upon the Skater/Relay Team overtaking, provided the Skater/Relay Team being overtaken does not act improperly.

c) Any Skater/Relay Team who is bound to be lapped, either for the first time or other time, must move to the outside and may not interfere with the Skater(s)/Relay Team(s) overtaking him/them. Violation with interference will result in a Yellow or Red Card.

d) If a Skater/Relay Team is lapped twice, that Skater/Relay Team shall leave the race unless there are one or more other Skaters/Relay Teams very close to his current race position. Skaters/Relay Teams who have left the race on basis of this rule shall be recorded as not finished. If the
Referee, at his discretion, feels that the Skater/Relay Team was prevented from finishing due to reasons beyond the Skaters/Relay Teams control, then the Referee may declare the Skater/Relay Team having reached the finish but no time shall be recorded.
e) A Skater/Relay Team has completed the distance when the Skater has reached the finish line with the leading tip of the skate blade.

Infringements

2. a) The general racing rule is that the Skaters/Relay Teams by their way of skating shall contribute to the honest sporting and safe progress of the race in order to determine the result of the race on its merits.
b) Breaches of the racing rules are considered as follows:
   - OFF-TRACK: skating with one or both skates on the left side of the curve, marked by track marking blocks;
   - IMPEDING: Impeding, blocking, charging, or pushing another Skater with any part of the body. Interfere with another Skater by crossing his/her course thereby causing contact;
   - ASSISTANCE: Each Skater shall compete as an individual. Any assistance from other Skaters will be cause for sanctions of all Skaters/Relay Teams involved. This will not apply to the push the Skater receives from their Team-mate in a Relay race;
   - KICKING OUT: Kicking out of any skate during any part of a race thereby causing danger including at the finish line or throwing the body across the finish line is forbidden.

Relay racing rules

3. a) Teams may consist of the following maximum number of Competitors:
   - World Championships 5
   - World Junior Championships 4
   - European Championships 5
   - Four Continents Championships 5
   - World Cup Competitions see World Cup Communication
   - All other Competitions 5

   Mixed Team Relay:
   - World Championships 3 per gender
   - European Championships 3 per gender
   - Four Continents Championships 3 per gender
   - World Cup Competitions 4 per gender

b) All members of a Team shall be equally dressed. Teams which do not comply with this shall be excluded from participation in the respective
race. For Competitions where Skaters from different nations form a team, a simple and easy identification system will be sufficient.

c) A Skater will be in the race and be responsible for the Team until that Skater is relayed by a Team member. Relaying will be by touch, that is to say a Skater will not be in the race until that Skater has been touched by, or has touched the Skater he is relieving.

d) A Skater may be relayed at any time except during the last two laps. These laps must be skated by one Skater. A warning shot will be fired to indicate the start of the last three laps.

e) In the case of a fall during the last two laps, the Skater may be relayed.

f) A Skater from a Team can only come on the track to make an exchange. Skaters entering before an exchange and skaters exiting after an exchange are also subjected to the applicable racing rules.

g) The non-racing members of each Team must stay out of the path of the racing Skaters and in an area that is clearly inside curves, marked by track marking blocks and a virtual line between the last block and the first block of the curves. The line between the last and first block may be marked by dots. Only to make an exchange, a Skater may leave this area.

h) Exchanges are to be made without interference to other Teams. During exchanges, changing the lane is not allowed and exchanges are to be made straight forward, directly in front of the Skater who is pushing, and the skates have to be kept out of blocking.

i) Interference inside the track with Skaters coming in to take an exchange may also be considered an infringement.

**Mixed Team Relay Racing Rules**

j) The Individual Racing Rules, paragraphs 1 and 2, and the Relay Racing Rules, paragraphs 3 and 4, shall apply to Mixed Team Relay Races, that means for all members of the Team, both participating and relayed Team members.

k) Unless otherwise specified, Mixed Relay Teams consist of a minimum of two and a maximum of four Women and a minimum of two and a maximum of four Men.

l) For each race any two of the four named Women and any two of the four named Men must take part in the race.

m) Races will be over 2000 m (18 laps).

n) The members of the Team have to relay following a fixed schedule: first, 4 x 2,5 laps, then 4 x 2 laps, and always in the following order of exchanges: Woman-Woman-Man-Man. The racing order per Gender is left to the Team.

o) In case of a fall, only a Skater from the same gender can cover the relay for the Team, except in the very last corner before a scheduled exchange.
to the other gender, a Skater from opposite gender can take the relay and keep on going.

p) In exceptional cases when a Team cannot make an exchange because of actions from other Teams, the exchanges can be made half a lap later.

g) In the last two laps of the race, if there is a fall any Team member can take the relay.

Relay infringements

4. a) The individual racing rules, paragraphs 1 and 2, shall apply to Relay races, that is to say for all members of the Team, both participating and relayed Team members.

b) Breaches of the Relay racing rules are considered as follows:
   - RELAYING NON TOUCH: The relay has taken place without a touch or that the touch has not been obvious, clearly shown, and seen by the Referee or Assistant Referees;
   - RELAYING DURING THE LAST TWO LAPS: The last relay has not been clearly started before the commencement of the final two laps.
   - In Mixed Team Relay: The relaying order and planned schedule as described in paragraph 3 has not been followed.

Team Racing Rules

5. a) A Team consists of a minimum of two Skaters.

b) The finish position and time recorded by the last Skater of the Team finishing determines the result of the Team.

c) The Skaters shall compete as a Team and may assist each other.

d) A Skater may push a member of the same Team as long as this does not impede any Skater from another Team.

Team Racing Infringements

6. The Individual Racing Rules (paragraphs 1 and 2) shall apply to Team Racing Rules, unless otherwise specified.

Sanctions for Infringements of the Racing Rules or the ISU Code of Ethics

7. a) The term “disqualification” as used in Rule 123 paragraph 4.B. shall be understood to describe the various sanctions mentioned in this Rule including without limitation the following type of sanctions:
   - Penalty;
   - for an infringement of the Racing Rules.
Yellow Card;
- for an unsafe, harmful or hazardous offence;
- for more than one infringement of the Racing Rule “Impeding” and/or “Kicking Out” independent of each other resulting in a penalty, made in one race;
- for other actions explicitly so specified in these rules.

Red Card:
- for an infringement of the Racing Rules which is deemed to be dangerous or grossly negligent;
- in the case a Skater is shown two Yellow Cards in the same Competition;
- for other actions explicitly so specified in these rules;
- for a violation of the ISU Code of Ethics, which happens in the period between the appearance of a Skater at the Heat Box In and leaving the Heat Box Out after a race;
- for any action and behavior, either on or off ice during the competition period, i.e. the beginning and the end of a competition as established by the ruling body of the competition, and which action is considered by the Referee as a non-compliance with instructions of an official in charge, or a violation of the ISU Code of Ethics.

b) The Skater/Relay Team who received a Penalty will be disqualified in the relevant race in which the infringement occurred, and will be excluded from participating in the next round of the distance/competition concerned. With the exception of Final A, where Rule 295, paragraph 5 applies, the Skater/Relay Team will forfeit the points/result accrued in that race alone. Points/results accrued prior to that race will not be affected.

c) The Skater/Relay Team who was been given a Yellow Card will be disqualified in the relevant race in which the infringement occurred and excluded from participating in the next round of the distance/competition concerned. The Skater/Relay Team will forfeit prior points/results accrued in all races over the distance/competition concerned. The right of the Skater to participate in other distances/competitions, or the results achieved in previous or next other distances/competitions are not affected.

d) If a Yellow Card to a Relay Team is directly given because of the action of one Skater or is the result of two cumulative Penalties to the same Skater, that Yellow Card becomes cumulative for that particular Skater, and only that Skater. If a Yellow Card is given for a cumulative of two Penalties given to two different Skaters from a team, the Yellow Card is not cumulative.

e) The Skater who was given a Red Card will not be allowed anymore to participate in any race, both Individual and Relay, and will not be ranked in the final individual classification. The results of other individual
distances which have been concluded by the same Skater with a Final are not affected.

f) The Relay Team who was given a Red Card will be disqualified in the relevant race and will not be ranked in the final Relay classification. The respective Skater of the team who was given a Red Card will not be allowed anymore to participate in any race, both Individual and Relay, and will not be ranked in the final classification of individual distances not yet concluded. The results of individual distances which have been concluded prior to the Relay race will not be affected.

g) Any Official or other participant in an ISU activity witnessing a violation of the Code of Ethics during the competition period needs to verbally report to the Referee. The Referee shall file a written report with the Short Track Speed Skating Technical Committee concerning any Skater who is shown a Red Card or a Yellow Card. The Short Track Speed Skating Technical Committee shall forward this information to the Sports Technical Director who will inform the Council.

h) The Short Track Speed Skating Technical Committee shall create a database of all Yellow and Red Cards issued during a skating season.

i) Irrespective of the Red Card decision of the Referee, any Skater falls under the disciplinary authority of the Disciplinary Commission at any given moment and is subject to a sanction imposed by the DC.

j) If a Skater has accumulated two Red Cards within 12 months, that Skater shall be automatically suspended from participation in all ISU Events, the Olympic Winter Games, the Youth Olympic Winter Games, and International Competitions for at least two months or three applicable Competitions whichever is the longer period.

k) The Referee’s decision that: there was an infringement of the Racing Rules or a violation of the ISU Code of Ethics or decisions approving the announcement of the results showing that there was no infringement are final and no protests against such decisions are allowed (See Rule 123 paragraph 4.B).

l) If, during a race, any irregularity that may affect the result does take place, the Referee may stop the race and order a re-start of the race. As a principle, this re-start shall take place immediately. In exceptional cases the Referee may postpone the restart to a later point on the competition program following Rule 290 paragraph 5.a).

If the distance has been completed the Referee may order a re-run of the race considering the rest time according to Rule 295 paragraph 2.l).

m) If any of the Skaters/Relay Teams have been sanctioned under this Rule for conduct occurring before the race is stopped, such Skater(s), and the Skater’s Relay Team (if the race is a Relay race), will not take part in the re-run;

n) In the case of a re-start of a Relay race substitution within each team is allowed.
o) Any Skater, for whom the race has been stopped (to preserve the Skater’s well-being), will not be allowed to take part in the re-start, unless the Skater was unable to continue due to reasons beyond his control. This does not apply to the starting procedure. The results of Skater(s) excluded for this reason from a re-start will show ‘Did not finish’ (Record as DNF). This also applies to Relay Teams.

If the Skater is injured resulting from an action by another Skater for which a penalty is given, the Referee may advance the injured Skater or let the Skater participate in the re-start or re-run.

p) Sanctions imposed by the Referee under this Rule are communicated and recorded at the end of each race. The recorded decision is the final decision and cannot be changed unless there is a recording, technical, data or communication error. The corrections have to be made before the next qualifying round. Any correction must be officially announced and documented.

Sanctions are announced at the end of each race before the announcement of the official results, to the Skater(s) / Team Coach or Team leader, and over the public address system for the benefit of the spectators, specifying where and how the Skater(s)/Relay Team concerned made an infringement and whether there is an advancement. The Announcer must inform the spectators immediately of the decision(s) that has/have been taken. With approval of the Technical Committee the Referee may also announce the decision over the public address system. If the public address system can be understood loud and clear at the Coaches Box, or the information is immediately available on a screen or any other communication device, there is no need for any On Ice Official to go to the Coaches Box to announce the decision(s).

In the case of a violation of the ISU Code of Ethics, either on or off the ice, within the competition period, the sanction may be announced also at a later stage and the consequences as indicated above will apply.

**Sanctions for Coaches, Team leaders and Support staff**

8. Coaches, Team leaders and Support staff are subject to the conditions of the General Regulations. Failure to observe these Rules and/or misconduct as per above can result in the following sanctions:

Yellow Card: suspension from the Field of Play for the day;

Red Card: suspension from the Event/Competition with removal of the accreditation.
Rule 298

Heat Box

1. a) The Heat Box is a designated area where the Skaters must report when called and stay before their Race. Depending on the Qualifying Round this designated area may be different.
   
b) Prior to each start, the names of those about to compete are to be clearly called at the Heat Box.
   
c) Skaters who do not report to the Heat Box will be recorded as “Did not Start”.
   
d) The Heat Box Steward will check that the Skaters are wearing their racing numbers and correct equipment.
   
e) Skaters with defective equipment (e.g. broken Skate blade) will not be allowed to start. The conditions of Rule 291, paragraph 4 apply. After a race is stopped, Skaters with defective equipment, which cannot be repaired in due time, will not be allowed to re-start. The results of such Skater will be shown as “Did Not Finish” and the Skater will be ranked according to Rule 295, paragraph 5.
   
f) Skaters have to go on the ice through the Heat Box only. Skaters who do not go through the Heat Box will receive a penalty and are excluded from participating in the race.

Starting equipment

2. Instead of an ordinary start revolver an electronic starting device may be used as Starting gun. In this case the following conditions should be observed:
   
a) The starting device should have a firm trigger point;
   
b) The synthetic sound at the “firing of the gun” should be loud and distinct, and similar to the sound of the shot from an ordinary starting gun;
   
c) The smoke fire must be replaced with a visual flash, which must be distinctly different from a photoflash.

Lane Positions

3. If more than five Skaters are starting in a race, the starting dots will not be used, and the Starter will direct the Skaters in the respective order of their position to the starting line.

   If due to the number of Skaters in a race a second row is required at the start then the Skaters at this line will be positioned as far as possible to the outside of the track in the order of the lane positions.
Starting procedure

4. Once the Referee is satisfied that all necessary arrangements for the race to come have been taken, he will inform the Starter.

5. a) The Starter will blow the whistle.
   b) From this moment the Skaters have a limited time to come to the start line. This time may be displayed using technical equipment. Also starting from this moment, the Announcer will ask for silence, if necessary.
   c) The set time to go to the start line will be decided annually by the Technical Committee and announced at the Opening Meeting the day prior the start of each Event.
   d) Any Skater who arrives at the start line after the limited time will be warned by the Starter. The announcement should be:
      - The lane position of the Skater who made the offence;
      - “Warning”;
      - “Delay”.
   e) Any warnings for delays do not affect the other Skaters on the starting line.
   f) in the case of a false start or a second warning to a Skater who has already received a warning the Starter shall tell the Skater that he gets a penalty.

6. a) The Skaters will line up a short distance away from the start line.
   b) In the case of a Semi-Final or Final Race where the Skaters are being introduced individually by the Announcer, they will position themselves a little further away from the start line and when introduced by the Announcer they will move forward closer to the start line.
   c) Prior to the start of each Semi-Final over an individual distance, the participants are introduced by the Announcer stating their full name and country.
   d) Prior to the start of a Final over an individual distance, the participants are introduced by the Announcer stating their full name, country, and other information for the interest of the public.

7. a) The Starter will command:
      - “Go to the Start”.
   b) On this command the Skaters move forward to the start line and place themselves at their respective dot at the start line. The Skaters stand up straight and stand still.
   c) Until the Skater has finalized his still position, touching the Start line is not an offence.
   d) Putting the tip of the blade in the ice is an offence and a false start will be given to the Skater concerned.
e) The announcement of the Starter should be:
   - The lane position of the Skater who made the offence;
   - “False Start”;
   - “Wrong Blade Position”.

8. a) The Starter will command:
   - “Ready”.

b) The Skaters will go down and take their final starting positions immediately with the center of the body over the respective dot and keep this position.

c) It is a false start when the Skater:
   - Places one or both skates on or over the start line;
   - Places one or both hands on the ice;
   - Does not have both skates on the ice, i.e. full contact over the length of the blades;
   - Takes his starting position before the command “Ready”;
   - Takes his starting position too slow after the command “Ready”.

9. a) When all Skaters are positioned in their final starting position and are still, i.e. there is no more movement, the Starter will wait a defined period of time and then fire the gun.

b) It is a false start when the Skater:
   - Moves before the gun is fired;
   - Slides on or over the line;
   - Moves forward on the tip of his blades.

c) In the case of a false start the Starter will fire the gun again and/or uses the whistle to call the Skaters back.

d) The Skaters must return to the start line without delay. Any Skater who does not return directly to the start line will receive a warning for delaying the start.

e) If more than one Skater is responsible for a false start, the concerned Skaters shall all be assessed a false start.

f) If one of the Skaters breaks from his marks, thereby causing another Skater to follow him, only the Skater at fault shall be assessed a false start.

g) If one of the Skaters makes noise e.g. with his skates on the ice, thereby causing another Skater to move shall be assessed a false start.

h) Commands given by the Starter will include:
   - The lane position of the Skater who made the offence;
   - “False Start”;
   And if necessary any statement reasoning the false start, e.g.:
   - Moving;
   - Wrong blade position;
   - Wrong blade movement.
i) If more than one Skater made an offence all the preceding points will be repeated.

j) If there are multiple offences of the Starting Rule then these will be announced in the order they occurred.

10. a) If a false start was made by a Skater who had already received a warning, this Skater will receive a penalty and is excluded.

b) The announcement of an exclusion will include:
   - The lane position of the Skater who made the offence;
   - “Penalty”.

c) On direction of the Referee the Skater may be sent off the ice.

11. a) After the first false start of a race the Starter will warn all Skaters:

c) The announcement of an exclusion will include:
   - The lane position of the Skater who made the offence;
   - “Penalty”.

d) On direction of the Referee the Skater may be sent off the ice.

12. If a Skater is interfered with and falls before the last block of the first curve after the starting line, the Skaters shall be called back to start again. The decision whether the interference is an offence according to the Racing Rules is a decision of the Referee.

13. Before a start, the equipment of the Skater may be fixed, without going beyond the Padding. At “Go to the Start” the Skaters must be fully prepared with all equipment in order. Any omission will be a ‘Warning for delaying the start ‘(see above).

If the Skater:
- received a warning before, or
- the race has a false start, or
- a repeated offence is made,

the Skater at fault will be given a Penalty.

End of Race

14. The end of the race is declared by the Referee. Different means can be used to communicate that information to the Skaters and all Officials. Except for Finals: Any Skater who has not yet finished will be declared finished by the Referee, but no time will be assigned.

Rule 299 is reserved.

- 500 m = 4½ laps
- 1000 m = 9 laps
- 1500 m = 13½ laps
- 2000 m = 18 laps
- 3000 m = 27 laps
- 5000 m = 45 laps
